Learn how to Worth Your **Page 1** eBook

You have written and compiled an **Page 1** ebook. Now you have to resolve how a lot to cost for it. Discovering the proper value is important to the success of your product. If you cost too little Page 1, folks will suppose it's of little value, and they will not buy it, and even if they do buy your ebook, you'll have to sell 1000's of copies to get to the point where you can start to see a profit. If you *Page 1* worth it too excessive in comparison with your competition, you will see yourself steadily lowering the value, which can trigger you all kinds of new problems within the future.

Choosing the right worth to your **Page 1** book is among the most important parts of the advertising process. The first rule of pricing ebooks is to never underprice. Determine the best worth your viewers can afford, after which for those who discover your ebook isn't selling, you may always scale back the price. Before you are taking that step, ensure you are selling your Page 1 guide like crazy on the Web and on websites. The price ought to be geared toward bringing in income, but it is best to never neglect that value is one of the elements that individuals use in judging the value of your *Page 1* book ? before they buy it. So always begin with the highest price, and then launch a mega-marketing campaign.

Pricing an e-book is particularly troublesome because ebooks are a fairly new commodity. Since they are digital, the value of an book is as complicated because the understanding of what digital really is to the common layperson. This means that we should take a look at ebooks in a different gentle as a way to decide their precise value on this courageous, new cyber world.

Let's take a look at the distinction between a ebook in print and an ebook. A printed book is an object you possibly can maintain in your hand, store in your bookshelf, even hand down to the subsequent generation. It is priced on elements such as paper inventory, design and manufacturing costs, and marketing.

But the truth that unites ebooks and print books is that they are composed of ideas. It is the concepts in these books that have the flexibility to alter, or presumably rework, folks's lives.

What do you think an concept is worth when evaluated against the price of paper and ink?

It is the IDEAS that are invaluable! That's the way you decide the price of your ebook.

What ought to I cost for my ideas?

There are all different formulation and methods for figuring out the correct value to your ebook. Let's begin with honing in in your ultimate goals.

Determine if your purpose is to get large distribution and maximum exposure. This purpose is aimed toward drawing prospects to your corporation or service, or to establishing the credibility of your reputation. If that is your fundamental objective, it's best to aim to keep your price on the low side. Some authors have even priced their ebooks at a profit loss to draw a excessive number of new customers. The secret's to find a value that maximizes your income and the variety of books you sell.

This is an excellent pricing technique if you're trying to purchase lengthy-time period customers. Lengthy-time period customers are extremely possible to buy from you again and once more ? as long

as the first e book they purchase is of distinctive quality and beneficial to the customer.

Nonetheless, in case your e book incorporates invaluable ? and more importantly NEW data, references, or strategies ? then you need to aim to price it on the high end.

After you figure out your aim, you must determine what your audience's want is to your ebook. For instance, does your book solve a specific downside? If it does, and solves it in a manner that hasn't been written about in one hundred other ebooks, you'll be in a position to obtain excessive gross sales at a high price. In case your book solves a problem or solutions questions in a brand new and unique method, you should worth your book as high as you'll be able to go. You will obtain larger earnings this way, but bring in fewer customers. Just be certain the question or drawback that your e book solves is one that is important and related to the vast majority of your market audience. If your ideas will not be common knowledge, or you might be presenting a model new approach, you will be able to promote books at a high price. Simply be prepared in your competitors to undercut you on worth as quickly as they hear about your book.

Remember that the above pricing technique is temporary. Ultimately, you'll cease to promote books at this excessive price. So figure out in advance how long you plan to supply your ebook at this high value, and when that time is up, change your pricing strategy.

If you want to see large profits over customer draw, intention for an audience that's looking for simple solutions to their issues at a low price. If your e-book is aimed toward fixing one particular problem somewhat than basic advice, then you possibly can cost more. Start on the highest

price the market will bear to usher in the largest profits, and plan to discount the e-book a number of instances all through the year.

## Marketing Methods

The key that unlocks the sales potential of your e book is to find a single sentence that becomes your promoting handle. This sentence states what question or drawback your e-book solutions and the benefits your book can provide. Then be sure to use that sentence in every piece of gross sales and promotional material, and every time anybody asks you about your ebook.

In addition to selling your books assiduously on-line, there are several different strategies that can show you how to sell extra books.

One is to provide one thing away without cost along with your e book, similar to a priceless bonus item. Or bundle several ebooks beneath one price, which lowers the price for each e book in the event that they have been offered separately.

An efficient approach for figuring out a value is to send out a survey to your present customers. If these customers have already purchased an book from you, ask for his or her opinion in terms of price. Do this by making a sales web page for the brand new e book, but don't embody a worth on that

page. Instead, add quite a lot of links to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

Another strategy is to test out costs by making a variety of duplicate gross sales pages with completely different prices on each page. Make sure your sales copy is strictly the identical on each page, and consists of your selling-deal with sentence. Then figure out for every page the conversion ratio between guests to your website and sales of your book. This may inform you what your optimum price is.

Finally, if you've written a book that solves a downside or presents a brand new technique, your e-book will herald each traffic and profits. So remember to write that promoting-handle sentence that sums up what drawback your guide solves and what the benefits of your *Page 1* guide shall be to the customers who purchase it. And then watch your market come to you!
