Some authors have even priced their ebooks at a revenue loss to attract a excessive number of new customers. The hot button is to discover a value that maximizes your earnings and the variety of books you sell.

Just be prepared for your competitors to undercut you on price as quickly as they hear about your book.

Understand that the above pricing strategy is temporary. Ultimately, you'll cease to promote books at this high price. So work out prematurely how long you plan to offer your book at this excessive value, and when that time is up, change your pricing strategy.

If you want to see giant profits over customer draw, purpose for an viewers that's in search of straightforward solutions to their problems at a low price. In case your book is aimed toward fixing one specific problem moderately than common advice, then you'll be able to charge more. Begin at the highest value the market will bear to herald the largest earnings, and plan to discount the e book a variety of instances throughout the year.

Be sure your sales copy is precisely the same on every web page, and consists of your promoting-handle sentence. Then figure out for every page the conversion ratio between guests to your site and sales of your book. It will tell you what your optimum value is.

Finally, in case you've written a e book that solves a drawback or presents a new method, your ebook will bring in each traffic and profits.
